The ice cream sector represents the "flagship" of the Rinaldi Group.

Thanks to various research projects and subsequent development of production techniques a take-away ice cream trays in EPS, **Riba Sud** srl has established itself as leading company in the country.

The company also produces containers for transporting and shipping cakes ice cream of various sizes, as well as producing bases in expanded polystyrene for making cakes of different shapes and sizes.

There are numerous collaborations with large national and international groups to make products more and more responsive to maintenance characteristics of temperatures and image of the product itself, thanks to the natural color of the EPS, which does not alter the product in any way, but makes it pleasant to the vision.
